The editor professes whiggery, we believe, as his political creed, and this will account probably for his sympathics with, and advocacy of this new fangled ism. It is true, that in the article referred to, he is 'down on' both of the political parties of the day, but his defence of this new association shows his affiliation with the whig parly, since we presume there are few but who will concede that the Native American principles of '36 and '40, which were espoused by the whig party, and especially by Gen. Scott, constitute the basis of the Know-Nothing party.

If the temperance party throughout the union expect to secure the general adoption of their platform by denouncing and proscribing foreigners, they will find themselves mistaken. The reformation they are endeavoring to effect is a moral one in its nature, and we have yet to hear of any such reformation ever being carried into successful operation by means of political proscription. Temperance is a divine attribute, and religious associations, aided by speakers and the temperance of the operation by speakers and the temperance of the press, must effect the spread of the total abstinence principle; and in calling in the total abstinence principle.

Dr. Hunter's Medical Mennal and hand book for the Afficted. Contraining an ontioe of the urigin, progress, treatioent and cure of every lorin of the disease, contracted by promiscuous sexual intercours by self abuse, or by sexual excess, with a dvice for their prevention, written in a similar style avoiding all need real technicalities, and everything that would offend the ear of decency, from the result of some twenty year successfull practice, exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added, receipts for the cure of the above diseases, and a treatise on the causes, symptems and cure of the Fever and Ague.

Testimony of the Professor of Obstetrics in Penn. College, Philadelphia.—Dr. Hunter's Medical Manual.—The author of this work unlike the inaparity of those works who advertise to cure the disease of which is treats, is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend on in to the unfortunate, or to the victin sof malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

innor and integrity they may place the greatest could dence.

JOSEPH LONGSHORE, M. D., of Penn, University Philadelphia.—It gives me pleasure to add my testimm by to the professional ability of the Author of the Medical Manual. Numerous cases of Biseases of the Genial Creans, some of them of long standing, have come under my notice, in which his skill has been mainfest in restoring to perfect health, in some instances where the patient has been considered beyond medical andim the treatmedt of Seminal weekness or disarrangement of the functions produced by Self and sk, or Exiss of venery. I do not know his superior in the procession. I have been acquainted with a history some thirty years, and deem it no more than justice to him as well as a kuniness to the unfortunate victim of carle this creting, to recommend him as one, in whose provession 19kill and integrity they may safely confide themselves.

TWENTY YEARS EXPERIENCE. TWENTY YEARS EAPERTENCE.
In the treatment of a class of disease hitherth neglected and imperfectly understood, has enabled Dr. KIN KILIN, (Jathor of a work on Self Preservation) to prove that mue tenths of the causes of nervous debil v local and constitutional weakness, mental and physical suffering are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.
There is an evil habitsometimes infulged in hyboys, lo solutule, often growing up with them to manthood, and which, if not reformed in due time, not only begets serious obstacles to marimomal happiness, but gives rise to a series of protracted, historys, and devastating affections. Few of those who give way to this perul, clous practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the onind.
The unfortunate time affected becomes feelie, is unable to labor with accustomed vigor, or to apply his mind to study; has sten is tardy and weak, he is dull, irresolute, and eagages in his sport with less energy irresolute, and eagages in his sport with less energy

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early folices. These are considerations which should awaken the attention of those similarly situated.

MARRIAGE

MARRIAGE

Requires the fulfilorent of several conditions, in order that it may be really the cause of motual happiness. Could the veil which covers the origin of domestic wretchedness by raised, and its true-source in every instance disclosed—in how many could it by traced to physical disqualifications and their attendant disappointment. Apply them while it is yet time, in order to have your justing and relaxed organization rebraced, retyrhed and strengthened. to have your unsured ed, revivified and strengthened.

REVEMBEP

He who places himself under lit. KINKELIN'S treatment may religiously combile in his honor as a gentleman, and rely upon the assurance, that the secrets of Dr. K's patients will never be discussed.

Young man—let no lide modesty deter you from making your case known to one, who from education and respectability, can certainly befriend you.

Too many think they will conocal the secret in their own hearts, and cire themselves. Alas! how often is this a fatal debision, and how orany a promising young man, who might have been an ornament to society, has faded from the earth.

Strictures of the urethra are rapidly removed by the application of a new therapeutical agent, used only by Dr. K. Weakaess and constitutional debility pramptly cared, and full eiger restored.

### AYER'S PILLS,

A NEW and singularly successful remedy for the eure of all Billous diseases — Costiveness, Indigestion, Jaundiee, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousi ess, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Couplaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine Is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Catharlie were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been ovoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Billous derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family plysic is in f the first importance to the public health, and this Pill has been perfected with consummate skill to neet that demand. An extensive trial of its virtues by Prysicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures bave been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are
PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

Doct. A. A. Hayes, Practical Chemist of the Port of Boston, and Geologist for the State of Measurement.

Port of Boston, and Geologist for the State of Masachusetts.

In A L MOONE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

If. C. Southiwer, Esq., one of the first mere hants in New York City.

C. A. Davis, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public nen is shown in their effects upon tria'.

These Pills, the result of log investigating and study, are offered to the public as the lot and nost complete which the present state of meeting science can afford. The, are compound to the the drugs themselves, but of the medicin layting only of Vegetable remedies, extracted layeline and process in a state of purity, and combined together in such a manner as to insure the pest result. This only of vegetable relinding, extracted vertices and the process in a state of purity, and combined together in such a manner as to insure the vest result. This system of composition for medicines has be not at a more efficient remedy than had hitherto and tained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or left acrimonious and injurious qualities, by it is each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident tho effects should prove as they have proved more purely remedial, and the l'ills o surer more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an a tend: § Physician, and as he could not properly in ze ta remedy without knowing its composit in. It is applied the search of the property of the part of the part
